Font Usage Guide

V 3.1

Depending on the package you download, you'll see some folders:

Family: It's for general usage.

NoEn: It's suitable for choosing the desired English companion font.

Webfonts: (inside each folder) for use on the website.

Variable: There are two axes in the variable version:

- "Weight" axis changes the weight of the font.
- "Width" axis changes the width of the font.
- "Dots Style" separates the dots that are connected.
